Rev. John H. Judge, of Nanticoke, has been selected by Bishop Hoban as pastor of the Sugar Notch parish, made vacant by the transfer of Rev. Thomas Rea to St. Joseph's parish, Minnoka.

Rev. Father Judge was formerly at Hawley and Pleasant Mount. The changes will take place this week.

AN ENGLISH ATKINSON.

Patrick O'Brien Suspended from the House of Commons.

London, Oct. 23.—During the course of the day's proceedings in the house of commons while the house was discussing the report on the supplementary estimates, Patrick O'Brien, Farnham member for Kilkenny City, declared that the hands of the British secretary of state for the colonies, Joseph Chamberlain, were as much stained with blood as those of any murderer who ever mounted the scaffold.

The speaker, William Court Gully, called upon Mr. O'Brien to withdraw his remark, but he refused to do so, whereupon the house by a vote of 318 to 29 resolved to suspend him and he left the house remarking: "You had better bring up another army corps unless you want it somewhere else."

LIST OF STUDIES FOR HIGH SCHOOL

ARRANGED BY PROF. GRANT
AND APPROVED BY BOARD.

Thirty-Two Courses of One-Half Year Must Be Passed for a Diploma—An Average of Seventy Per Cent. in Each Study Must Be Obtained—Mr. Jennings After the Contractors Who Have School Work Done Outside the City—Big Discrepancies in Cost of Heating Buildings.

Below is given the new schedule of studies arranged by Principal Grant for the high school. It was presented at last night's meeting with the endorsement of Superintendent Howell and the High and Training school committee, and was adopted. The schedule is fashioned in a measure after that of the Indianapolis High school, which, under Professor Grant, became recognized as one of three leading high schools of the country. Principal Grant's policy is to graduate pupils just as soon as they can complete the course. If a pupil does the work in two years he or she is just as much entitled to a diploma as a pupil who requires four years.

REQUIRED SUBJECTS.

Language—College English requirements for preparatory pupils, last three years; rhetoric, grammar, literature, composition, etc., for all others, first three years.

Mathematics—Algebra, 1 year freshman; plane geometry, 1 year; arithmetic, one-half year; algebra and geometry, 1 year. (Review for preparatory pupils.)
Science—Physics, 1 year sophomore; chemistry, one-half year; physics review senior year for college entrance.

History—American history, one-half year; medieval and modern, one-half year. (Classical pupils may omit.)

ELECTIVE SUBJECTS.

Language—English literature, fourth year for all except college preparatory pupils (Latin, 4 years freshman; Greek, 3 years sophomore; French, 3 years sophomore; German, 3 years sophomore; Spanish, 2 years junior).

Mathematics—Solid geometry, one-half year; plane trigonometry and surveying, one-half year.

Science—Chemistry, one-half year; astronomy, one-half year; physical geography, one-half year; geology, one-half year; zoology, one-half year; botany, one-half year; bookkeeping, 2 years; commercial law, 1 year; psychology, one-half year; political economy, common geography.

History—English history, 1 year junior and senior; United States history, 1 year junior and senior.

Hand work—Free hand drawing, 2 years; mechanical drawing, 1 year; stenography, 2 years; pen and spelling, 1 year; correspondence and business forms, 1 year; typewriting, 2 years.

(a) Pupils may be excused from required work by the superintendent on advice of the principal.

(b) Thirty-two courses (of one-half year each) must be successfully passed for graduation.

The high and training school committee renewed its recommendation that 70 per cent. in each study be secured as standard mark for promotion and graduation in the high school and the recommendation was adopted.

Other recommendations of the committee adopted by the board provide for loaning the high school auditorium to Ezra Griffin post, G. A. R., for a series of lectures for the benefit of some needy veterans; authorize the purchase of blackboard for the commercial department, a case for the text books and maps for the high and training school.

ANNEXES RECOMMENDED.

The building committee recommended that four annexes be rented in the Twelfth ward; that the salary of the janitor of No. 19 be increased \$2 a month on account of the opening of another room; and that a clause be inserted in all building contracts, hereafter providing that all stone used in school buildings shall be cut in this city. The recommendations were adopted.

The last recommendation was the result of a resolution adopted at the previous meeting on motion of Mr. Jennings, directing an inquiry into the report that stone for the new school building was being cut outside the city, that it was an inferior quality and that the work was done by scab labor.

Mr. Jennings was not satisfied with the committee's report; he believed it should give particulars. Mr. Roche volunteered the information that the stone for No. 9 building was being cut at the Brandt quarries by E. J. Williams.

Mr. Jennings seemed satisfied with this disclosure. "That's what I am trying to get at," he said. "We can't rescind contracts already let, but we can and should condemn the action of contractors in going out of the city to have work done that can be done here at equal cost. I am credibly informed that this work is of an inferior quality and I regret that our architects permit it of its being placed in the buildings. He then introduced the following resolution:

Resolved, That the contractor for No. 2 (new building) be and is hereby required to submit to the board, for approval, the names of the sub-contractors, who are to do the work on said building; and, furthermore, that no contract for work or material shall be approved by the board

until the names of the sub-contractors are submitted to the board and approved by it.

The resolution was adopted.

The board also adopted a resolution that the salary of the janitor of No. 19 be increased \$2 a month on account of the opening of another room.

The board also adopted a resolution that a clause be inserted in all building contracts, hereafter providing that all stone used in school buildings shall be cut in this city.

Mr. E. A. Earnest, of Hassler Mills, Ga., writes under date of August 21st, 1899:

"I am a merchant, sixty years old, and have had kidney trouble. I took three bottles of Warner's Safe Cure, and it worked like a charm from the first dose. I take great pleasure in recommending it. Mrs. C. Isenhower, of this place, who was cured by it ten years ago, is still hale and hearty, and always praising Safe Cure to her friends and neighbors. I think it is the finest preparation in the world for kidney and bladder troubles.

If said work is to be done, or said material secured, outside the city, provided same may be obtained in the city at equal cost to the contractor.

MR. FEENEY'S REMARKS.

J. J. Feeney, contractor for No. 9, was in the room and when asked what he had to say regarding Mr. Jennings' allegation, replied with some show of indignation that while he could not restrict the contractor to the place he secured his material or the men who did the work, he could and does insist on the highest material being furnished and the work being done in a first-class manner.

Mr. Feeney closed his remarks with some reference to Mr. Jennings' action in fighting to shelve down the appropriation for No. 9 building. Mr. Jennings told the architect that he was out of place making comments of that kind and that when invited to take the floor to offer an explanation he should confine himself to what was asked from him. "At all events," said Mr. Jennings, "the architects should be told the contractor is spending the money in the district and among the people who pay the architects their fees."

Mr. Langan asked Mr. Feeney if the sub-contractor on the stone work of No. 2 could live up to the specifications and make a day's work. Mr. Feeney said he could not answer the question.

Mr. Langan said: "I was told by the contractor himself that he took the contract for the foundations at a loss, but would make it up on the main building. This is bad policy. It stands against the main building will suffer."

The following recommendations of the teachers' committee were adopted:

That examinations for night school teachers be held in the board rooms, Friday, Nov. 3, the hour to be fixed by the superintendent; that day school teachers be held in the board rooms, Friday, Nov. 3, the hour to be fixed by the superintendent; that day school teachers be held in the board rooms, Friday, Nov. 3, the hour to be fixed by the superintendent.
